

July 6, 2021

Southern Adirondack Beekeepers Association and the Vermont Beekeepers Association

Invite you to attend a free online seminar:

How to Recognize and Mitigate Honey Bee Pests and Disease

Co-hosted by SABA and the VBA. Presenters will be **Brooke Decker**, Vermont State Apiarist, and New York State Apiarist, **Joan Mahoney**.

Tuesday, July 20, 2021, 7:00 P.M. via Zoom

This workshop is free and open to SABA members, VBA members, **and to non-members as well**. It will cover everything from AFB to viruses and will emphasize Varroa mite counts and control methods. You must register for the free event. (VBA members should login at the appropriate location when prompted.) The registration form will ask for your name and email address and will send you a confirmation email. Then, a few days before the event, we will send you the Zoom link for the meeting.

SABA and the VBA are excited to work together promoting this very important program. SABA & VBA members are encouraged to register using the link below without delay!
